Wisconsin Talk

Linguistic Diversity in the Badger State

Edited by Thomas Purnell, Eric Raimy, and Joseph Salmons

Yah! Wisconsin is one of the most linguistically rich places in North America. It has the greatest diversity of American Indian languages east of the Mississippi; French place names dot the state's map; German, Norwegian, and Polish are still spoken by tens of thousands of people; and the influx of new immigrants speaking Spanish, Hmong, and Somali continues to enrich the state's cultural landscape. An engaging survey for both general readers and language scholars, *Wisconsin Talk* illuminates why language matters in our everyday lives.

More than They Bargained For

Scott Walker, Unions, and the Fight for Wisconsin

Jason Stein and Patrick Marley

"Stein and Marley deliver a swashbuckling tale of Wisconsin's Republican Governor Scott Walker's election and tumultuous first year in office. . . . The authors' lively, economical prose, supplemented by snippets of social media reporting in real time, place readers in the crowded Capitol building stairwells, or in the midst of Wisconsin's largest sustained demonstration since Vietnam protests rocked the University of Wisconsin campus."—*Publishers Weekly*

Sister

An African American Life in Search of Justice

Sylvia Bell White and Jody LePage

When a Milwaukee police officer killed Sylvia Bell White's younger brother Daniel Bell in 1958, the Bell family suspected a racial murder but could do nothing to prove it. Twenty years later, when one of the two officers involved in the incident unexpectedly came forward, Sylvia was the driving force behind her family's quest for justice. In these pages, Sylvia emerges as a buoyant spirit, a sparkling narrator, and a powerful witness to racial injustice in a life story that reaches from her own enslaved grandparents to the nation's first African American president.

Warmed by Windchill

A Tiny Colt's Fight for Life

Jeffrey L. Tucker

Foreword by Carolyn L. Stull, PhD

One bitterly cold winter afternoon, a nine-month-old colt—extremely weak, starving, left to die—was frozen to the rock-hard white landscape of a Northern Wisconsin pasture. His call for help was answered, and the struggle of the little colt, called Windchill by his rescuers, was reported widely. Soon 1.2 million people were following Windchill's progress on a blog and webcam. Warmed by Windchill tells how Jeffrey L. Tucker, owner of nearby Raindance Farms, and Kathi Davis, owner of a horse training operation co-located at Raindance, rescued and cared for the colt, aided by an outpouring of assistance.

Worse than the Devil

Anarchists, Clarence Darrow, and Justice in a Time of Terror

Dean A. Strang

In its focus on a moment when patriotism, nativism, and terror swept the nation, *Worse than the Devil* exposes broad concerns that persist even today as the United States continues to struggle with administering criminal justice to newcomers and outsiders.

"Strang's fascinating book excavates a conspiracy trial in Milwaukee back in 1917 that sheds crucial insights into the failings of our legal system and the hazards of succumbing to mass hysteria against immigrants and alleged terrorists. The book provides urgent lessons for us all."—Matthew Rothschild, editor of *The Progressive*

Letters Home to Sarah

The Civil War Letters of Guy C. Taylor, Thirty-Sixth Wisconsin Volunteers

Guy C. Taylor, Edited by Kevin Alderson & Patsy Alderson
Introduction by Kathryn Shively Meier

Forgotten in an attic in Cashton for more than a century, these 165 letters were written by a young farmer-turned-soldier who served in the 36th Wisconsin Regiment in the American Civil War. Whether describing training at Camp Randall, his bouts of measles and malaria, the Siege of Petersburg, Lee's surrender at Appomattox, or the post-war parade of the armies through Washington D.C., Guy Taylor shows himself a keen and thoughtful observer. The letters show, too, Taylor's transformation from a lonely and somewhat disgruntled infantryman to a thoughtful commentator on the greater ideals of the war.

Flags of the Iron Brigade

Howard Michael Madaus and Richard H. Zeitlin

During the Civil War, some 5000 Union Army soldiers filled the ranks of the Iron Brigade: the Second, Sixth, and Seventh Wisconsin, the Nineteenth Indiana, and the Twenty-Fourth Michigan Volunteer Infantry regiments. The regimental flags were a tangible symbol of the Union and were always in the forefront of battle, proudly displayed and tenaciously defended. Many men died to keep their flags aloft. This is the story of how the flags of the Iron Brigade came into being and the purposes they served both during and after the war.

The Young John Muir

An Environmental Biography

Steven J. Holmes

"A landmark in the scholarship about John Muir and the developmental power of wilderness."—John C. Elder, editor of *American Nature Writers*

As a founder of the Sierra Club and promoter of the national parks, as a passionate nature writer and as a principal figure of the environmental movement, John Muir stands as a powerful symbol of connection with the natural world. But how did Muir's own relationship with nature begin? In this pioneering book, Steven J. Holmes offers a dramatically new interpretation of Muir's formative years—from his childhood in Scotland and Wisconsin through his young adulthood in the Midwest and Canada—one that reveals the agony as well as the elation of his earliest experiences of nature.

Sawdusted

Notes from a Post-Boom Mill
Raymond Goodwin

"Goodwin's clever characterizations of his solidly Midwestern, blue-collar sawmill mates are as vivid as the plaid shirts they sport. And his vignettes of sawmill politics, pranks, and passions bring the long-silent saws buzzing back to life. This entertaining work chronicles the decline of a once proud industry and the scrappy survivors it left in its sawdust trail."—*Library Journal*

A Visit to Priapus and Other Stories

Glenway Wescott
Edited and with an introduction by Jerry Rosco
Foreword by Wendy Moffat

Previously published in anthology form in the United Kingdom, "A Visit to Priapus" is presented for the first time in book form in America. The autobiographical story is about a literary man, frustrated in love, who puts aside his pride and makes a date with a young male artist in Maine. Lavishly rendered in Wescott's elegant prose, the tale is filled with descriptive beauty and introspective lessons about sex and sexuality, love and creativity.

Lorine Niedecker

A Poet's Life

Downeast Ledge

A Novel

Norman Gilliland

On the far side of the river that divides a Maine coastal town, the prosperous summer residents come and go, seemingly complacent, without having much to do with the locals. But when Amber Waits crosses the river to take a job as a caregiver to dementia sufferer Walter Sterling, all bets are off. As Amber tries to fend off one catastrophe after another, she has to muster her courage and resourcefulness to save her friends and herself.

The Sleeve Waves

Angela Sorby

Inspired by thrift store knit sleeves, punk rock record sleeves, and, of course, print book sleeves, Angela Sorby explores how the concrete world hails us in waves of color and sound. As Sorby's tough, ironic, and subtly political voice repeatedly insists, we apprehend, use, and release more energy than we can possibly control. Meant to be read both silently and aloud, the poems in The Sleeve Waves meditate on how almost everything comes to us in waves that break and vanish and yet continue.
